AMATEUR PLAYS

WEDNESDAY NIGHTKing Tut Pantomime Master
Play; McCarthy Star In
"The Valiant."

The many thousands of Salemites who were not among the fair sized audience at the High school auditorium Tuesday night missed the best presentation of one-act plays ever seen on a local stage.

And those who were there saw drama, pantomime and comedy at their best, although presented by an amateur company, as near professional in acting as an amateur could be.

Lighting effects in each of the four plays aided the production not a little. And the scenery and other mechanical effects blended so much with the plot of each play that the actors, all of them, were supreme in the atmosphere.

The first plays, "King Tut's Dream" and "The Valiant," stood out as the best on the program. It is not belittling the two farces, "The Previous Engagement" and "The Silent System" to say this.

Elizabeth Speidel as Artemadora, a beautiful dancer, Arthur Yengling as Pharnos and John Cavanaugh as Pharnos presented the love story of King Tut's time, and by a splendid company of slaves, guards, and attendants.

A Master Pantomime
It was undoubtedly a master pantomime production. Not a word was spoken, the actions of the actors telling the story in a fantastic, somewhat weird way, putting into it the touch of the East, of the Nile, of the tomb of old King Tut himself.

Better than the audience Wednesday night found the story than to have it told now. Love in Tut's day wasn't far different from today and even Artemadora danced for Pharnos who was in love for her, is a story in actions that should not be missed.

The case that Miss Speidel had in dancing is rarely attained by a professional show that visits Salem. Yengling was fine as the burly ruler and Cavanaugh yielded to the affections of Artemadora as a lover would.

Rebecca Davis did a fine prologue, telling something of the plot. Leone Farmer, Nanette Pierce, Helen Fick and Ruby Tinsman were dancing girls who showed training, grace and poise to a fine degree.

Margaret Woodruff and Jane Campbell, attendants, and Carl Howell and Kenneth Jewell, soldiers, were supernumeraries who had a lot to do with the setting.

Miss Elsie Wark, who gave all the cues by piano, deserves a lot of credit. Mrs. Ward Eckstein, the director, can feel very proud of the production.

McCarthy Fine Actor
H. L. McCarthy stood out from the four plays as the finest actor on an amateur stage in Salem. In "The Valiant" he was the valiant who went to his doom after one of the most tense and thrilling half hours of entertainment.

As Dyke, a condemned murderer, McCarthy showed that he is an actor of the best school. His moments with the girl Miss Nellie Halldeman, who was excellent as the leading lady, were moments that moved his audience to tears. How many amateurs ever did this with the ease of McCarthy?

Because of the deepness of the plot, of the fine dramatic unfolding of the plot, there plans than the one preceding it. Ray F. Carter, the warden, and Lester Woolman, as Father Day, and Frank Spencer as (Continued on fifth page.)

The action is the outgrowth of a raid conducted by East Palestine and Salem officers some months ago. Attached to the record of the case as presented to the court of appeals was a blackjack, a weapon introduced as part of evidence when the case was heard in common pleas court.

SCOUT EXECUTIVE

ON BOY PROBLEMWarren Rotarian Urges Men
To Take Interest In
The Boy Scouts.

Scouting is a program of learning by doing, it teaches boys to build in themselves character, the Salem Rotary club was told Tuesday afternoon by D. M. Olds, Boy Scout executive of Warren and secretary of the Rotary club of that city.

Olds outlined to the Rotarians the broad scope of Scouting and through personal experiences which he related brought to the club human interest stories of the development of a boy's honor and integrity through his training in Scouting.

It was an intensely interesting appeal for the men to take an interest in the boys at an age when they want and need the friendship and counsel of a man. He declared that a boy has 5,200 waking hours in a year, 1,000 of which he spends in school, 50 in Sunday school and 150 in eating and with his mother. To provide for the leisure time and to build character, is the aim of the Boy Scout movement, he said.

A Scout must recognize his duty to God and country he must help other people at all times, keep physically strong, mentally alert and morally straight. These are the things, Olds said, which build character in the boys. He told of their training to build fire, cook, etc., explaining that the signal code is studied to train the eye and mind to work together.

Plans were announced for the Rotary coon hunt to be held at the Atkinson farm west of the city Thursday night. Dinner will be served in the former Boy Scout log cabin at 6:30 p. m. and the hunt will follow.

FIGHT ON MELLONPresident Has Not Placed
O. K. On Mellon Plan
Or Bonus Bill.MISINFORMATION
GIVEN IS CLAIMLegion Charges U. S. Ended
Fiscal Year With a
Large Balance.

Washington, Nov. 14.—President Coolidge for the time being has adopted a policy of watchful neutrality in the open warfare that again has broken out between Secretary of the Treasury Andrew W. Mellon and the American Legion over the soldiers' bonus.

The president has not placed his O. K. on the Mellon program for a wholesale slashing of income taxes and a rejection of the bonus. Neither has he indicated that he would approve the bonus bill, which is regarded as certain of passage early in the new congress.

Observing the reticence for which he is famous, the president is simply "sitting tight" and watching the secretary of the treasury and the Legion fight it out for the plum of public opinion, which in the end will have an all-powerful effect in deciding the issue.

It is probable the president's attitude will not be known until the delivery of his first message to congress on Dec. 4 or 5.

Politics has become so entwined with the bonus question that all party leaders are stepping carefully and gingerly around the issue raised by Mellon, which, boiled down, places the issue in the light of "reduced taxes or a bonus."

A. H. C. Situation
With the entire house and a third of the senate coming up for re-election next year, all candidates realize the potency of a tax reduction argument on voters already groaning under a continuation of war-time taxes.

At the same time, a majority of both houses is committed, orally and in writing, to passage of the bonus bill. Many of them campaigned in their districts on the issue and won.

Into this hectic situation, the legion tossed today the direct accusation that Secretary Mellon has misinformed congress with misinformed information concerning the nation's financial condition.

Pointing out that President Harding vetoed the bonus bill after being informed by Secretary Mellon that the country faced a huge deficit, the legion then reminds President Coolidge that the fiscal year was concluded with a favorable balance of \$209,000,000.

The lad's mother notified police at noon Wednesday that her son has not been heard of since he left home on West Green st. for school early this morning.

Teachers are aiding police to trace the whereabouts of the boy. Citizens are asked to notify police should they learn anything concerning the boy.

APPEAL VERDICT

Resurfacing Case To
Higher Court.

The case of W. W. Mulford, as a taxpayer, against the city of Salem, heard in common pleas court Wednesday of last week, when the petitioner sought to restrain the city board of control from entering into a contract with the Kelly-Meyer Co., of Youngstown, for the resurfacing of Lincoln ave., was carried to the court of appeals late Tuesday afternoon.

Inasmuch as the appellate court is now in session in Lisbon, the case was to be argued before the court today.

The lower court in this case found for the defendant, declaring that the board of control acted within its rights in awarding this contract to the Youngstown concern, although a lower bid was filed with the board by the Ohio Willite Paving & Resurfacing Co. of East Liverpool.

LEWIS CANDIDATE
FOR COMMISSIONER

It is no longer a secret whether Sheriff Gomer Lewis will be a candidate for county commissioner next year. For some time it has been rumored about the county seat that Lewis proposed to enter this race but there was no confirmation of the report until Tuesday night.

"Yes, I intend to be a candidate for county commissioner next August," was the statement of Lewis. Lewis has been sheriff of Columbiana county for four years, and at his re-election for a second term headed the county ticket in the number of votes cast.

"Bootlegged" Blood For Children

When physicians examined Mrs. Carrie McFeely of Chicago they were puzzled by her anemic condition. Inquiry revealed that the mother of five tubercular children, though healthy herself, had been "bootlegging" her blood in Chicago hospitals in blood transfusion operations in order to support her family after they had been deserted by her husband. In the last operation she yielded a quart of her blood, for which she received \$50. The doctors notified her that another blood transfusion would kill her.

PLATES REMOVEDBurning Car On Teegarden
Rd. Believed To Have
Been Stolen.

Burned by persons who took the license plates and fled the charred chassis of a large touring car, a Columbia Six, was found on the Teegarden rd. south of Salem at an early hour Wednesday.

This car is believed to have been one stolen in Cleveland some time ago but no trace of the owners or persons said to have stolen the car can be found.

Chief of Police Thompson is making an investigation but as yet has not been able to clear up the mystery. Members of the Chaffant Motor Co., who brought the burned car into Salem are also trying to solve the matter.

Residents in the vicinity of the wreck declare that they heard an explosion after midnight but did not know where it occurred. It is thought that the gasoline in the car exploded after being set on fire.

The fact that the license plates were removed leads authorities to believe that the fire was intentional and was an effort by the thieves to absolve themselves from connection with a stolen car.

Residents in the south east part of the city heard an explosion about this time, believing that it might be another bombing. But all investigations made show that it was probably the gasoline exploding on the burning car.

Another machine, a coupe belonging to East Liverpool people, was found wrecked along the Lisbon rd. It is thought that no one was hurt although the car was badly damaged.

Barnesville, O., Nov. 14.—The National Bank of Barnesville failed to open its doors this morning. A notice on the door said the bank was closed for examination.

Statements of the institution show the resources to have been in excess of a million dollars. The capital and surplus totals \$150,000.

National bank examiners have been requested to make an examination of the bank's books. Until they complete their work, nothing will be given out regarding the reopening of the institution.

PROFESSOR FINDS
MORE IN RACES TO
ADMIRE THAN HATEBaxter Finds Good Traits In
All Foreigners, He Tells
Travelers.SAYS BRITAIN IS
OUR REAL FRIENDSpeaker Pleads For Better
Understanding Of The
New Japan.

"There is more in all races and people that we can love and admire than we need to fear or hate."

This is the conclusion reached by Prof. Bruce Baxter, of Mt. Union college, who recently returned from a six months tour around the world, and the message he brought to members of the Travelers club and their invited guests at a meeting Tuesday afternoon at the Presbyterian chapel.

It was from this standpoint that Mr. Baxter discussed his visit. In other lands and his talk was intensely interesting as well as entertaining. While some instances were related by Mr. Baxter in which he and members of his party had met with a pick-pocket and similar other unpleasant experiences that proved the nobility of the character of the foreign people with whom he came in contact.

Britain Great Friend
One of the most striking of these was of the Mohammed, the keeper of an antique shop at Luxor, when the party was on a visit to King Tut's tomb in Egypt.

The women were anxious to buy something that had come from the tomb to bring home to their American friends. They were repeatedly told by the Mohammed that nothing from the tomb was for sale and everything had been returned to it.

He lost a \$500 sale because he refused to take an untruth and when asked by Mr. Baxter why he did not lie and make the sale, he replied, "I would not lie to those people because money comes quickly and goes quickly, but a man's honor remains forever."

In speaking of his visit to England and the relation between the Americans and English, Mr. Baxter stated that our country had no greater friend than the British people, and that he had a heightened admiration for England.

After spending several weeks in Japan Mr. Baxter found more to love and admire in the Japanese than to fear and hate. He admired their boundless energy, unflinching smiles, friendliness and courtesies.

Mr. Baxter begged his auditors to consider the new Japan and pointed to some of its accomplishments of the last 14 months, one outstanding among these that of the accomplishment of the Woman's National Peace party there, which has been instrumental in having legislation passed whereby the world's militarism and accounts of military victories of the Japanese have been eliminated from elementary text books in the schools.

Barrier Is Broken
Mr. Baxter was told by business men while in Japan "that the reason we had to keep a large navy was to protect ourselves against the Americans." He also said he had heard the same expression in America as regard Japan.

He pointed to the great earthquake disaster in Japan as having shaken down the great barrier between our nation and Japan. "Let us not build the barrier again," he said.

"The more you study India the less you know about it," according to Mr. Baxter. He found fidelity and stability in the character of the Indian that is to be admired.

The musical part of the program was very enjoyable and consisted of three piano duets by Mrs. J. H. Hundermark and Mrs. E. E. Stoner and a vocal solo by Mrs. Lowell King, accompanied by Mrs. Hundermark.

The Business Outlook

THERE are business men who seem to be uncertain as to what is in store for the winter. They are carrying in mind the decline in volume that set in in the late spring and have not yet attained themselves to the decided improvement that began in the early fall and maintains an encouraging momentum. Too many of them were foolishly affected by the stock market slump, which they believed to be a reflection of business conditions beyond their immediate contact.

It should be understood that the dull stock market and depreciated stock market values of the summer in no sense reflected actual business conditions or prospects. Stocks were not sold at sacrifice because business was bad, but because speculative accounts had become overtaxed. When to correct this market condition, contraction of loans was demanded by banks, collateral had to be liquidated and the market for the time was surfeited. Prices simply yielded to the law of supply and demand.

Business has been going on with little diminution of volume, in comparison with that of other summers. Steel orders were below mill capacity, but were restricted more in the hope of obtaining lower prices later than by any slack requirements of industry. The railroads, which appropriated \$12,500,000,000 for improvements in 1923, have spent all but \$245,000,000 of it and will exhaust the remainder of the fund before Christmas. The restoration by the United States Steel corporation of an extra dividend shows that its net earnings have improved. The conference of railroad executives to consider appropriations for next year's betterment, which it predicted will exceed those for 1923, should encourage optimism in all business. It reflects their confidence in a volume of traffic in 1924 as great or greater than that of this year.

If there are any industries whose leaders are in position to hear ground rumblings and to forecast the future of trade, they are steel and transportation. If more testimony is required, read the reports of sales issued by distributing houses in merchandise markets. All over the country, however, there were larger than in preceding months, reflecting the effective buying power of consumers. Farmers alone have half a billion more to spend out of this year's crop returns. Building requirements are beyond the labor resources of the building trades and pending contracts cover the whole winter.

This is written not to convey an impression that booming times are here or near, but to say that business is good and growing better. The situation justifies sensible optimism, and there is no cause for pessimism.

Rules For Pedestrians

PEDESTRIANS, do you know there is a state law against walking on the roadway when a sidewalk is provided?

Monday evening a young woman, whose name was not learned, had a very narrow escape from injury and possible death, as she was walking along the Ellsworth rd., when the driver of an automobile failed to see her on account of the darkness. A quick swerve of the machine averted an accident. In this case the driver would not have been held responsible had the young woman been hurt.

Another thing that is unlawful for pedestrians to do that is practiced daily, is to cross the street where there is no crossing. The law says you must cross the street at the stated crossing, and stop and look both ways before starting across. Automobile drivers cannot be held responsible for accidents if these laws are not obeyed.

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using the well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2 1/2 ounces of Pinex from any drugstore, pour it into a pint bottle and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and breaks the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, whooping cough or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction, or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Are You One of the Fellows Who Live on "Some Day" Street?

Two friends met the other day for the first time in years. One said: "Since I started planting a little money in the bank every week I really feel that I am a different man—more independent. It is surprising how your savings grow when once you get the habit of saving. The other fellow said: "I guess that's so. My last week's salary is almost gone now. But some day I'll start a bank account."

GOD'S PICTURE OF THE HUMAN HEART IS SERMON TOPIC

Speaking on the theme, "God's Picture of the Human Heart" at the evangelistic service Tuesday evening at the First Friends church, the pastor, Rev. C. E. Haworth stated that "the thing that makes any man or woman's heart black is sin and that God's picture of the human heart without redemption was the same in the American as it was in the African."

"Until the matter of sin is settled once and for all, the heart is deceitful. There is no deliverance from sin but at the foot of the Cross," he said.

"Sin in the human heart is like a tempest. Sin paralyzes the finest sensibilities in the human heart. Sin blinds the eyes of the heart away from God."

"If your heart is not under control of Jesus Christ it is under the control of the powers of darkness. The reason some people don't like the Bible is because it pictures them as they are."

Miss Baldwin, assistant field secretary of the Friends Rescue Home, Columbus, will be at the service Wednesday evening and have some part in it. Rev. Mr. Haworth will speak on "Bring a Soul to Jesus."

Bridges the Gap
Between Solid
and Pneumatic

A practical tire of scientific design, combining the buoyant cushioning qualities of a pneumatic with the long, trouble-free mileage of a solid.

Because of its unusual construction the Firestone Maxi-Cushion closely approaches the ideal tire for most light and medium duty service. The depression pockets at the sides permit resilience almost equal to a pneumatic, while the solid, all-rubber construction eliminates the weakness of internal cavities and results in a tire of exceptional wear-resisting qualities.

We have a complete stock of these tires in all sizes, as well as three other types that Firestone builds. And we are ready at all times to make quick changes or give any truck tire service you may require. Let us show you how these tires and our service will put your trucking on the most profitable basis.

Vivacious Engine.

An engineer was giving evidence in a case in which a farmer was suing a railway company for damages resulting from the death of a cow, which had been run into by a train.

The farmer's lawyer was heckling the engineer, and kept reverting to his pet question, which was: "Now, tell me, was the cow on the track?"

At last the engineer became angry, and answered the question:

"Well, if you want me to tell the real truth, the cow was bathing in the stream the other side of the track. But the engine saw her, leaped off the rails, dashed over the bank, and landing right on top of the cow, strangled her to death without a word."—Milwaukee Journal.

Mrs. George Gould Comes To Fight For Estate.

Mrs. George J. Gould, the former Genevieve Sinclair, second wife of the late George J. Gould, has returned to New York from Paris to fight for a share of the Gould estate for her children. The children of Mr. Gould by his first wife are fighting to prevent the second Mrs. Gould's children from sharing in the estate on the grounds that they were born while the first Mrs. Gould was still alive and before, of course, Mr. Gould married his second wife.

(Continued from first page.)

the latter, were only slightly less important than the leads, and carried their parts with an air of stage folk having the best time in their work.

Two Farces Please

The two farces were short but fine contrasting pieces to the heavy plays that had gone before. In both "The Previous Engagement" and "The Silent System" Robert Taylor, as Ulysses (Useless) Grant Hollister, provoked continual fun and had his audience laughing all the time with his mixups on the phone, his affairs with many women, and in the last play, his silent acquiescence to his wife's ravings.

Miss Josephine Gottschalk, and what Salem play is complete without this fine little actress, did the wife's part in such a mirthful way that the realism in it stood out with acute sharpness. Mrs. Zora Trotter and Miss Sue Denning were capable directors.

The Community Players can be proud of their success of these their premier productions. The community can be proud of its community players, who so ably expressed life in four clean, entertaining, and extremely interesting plays.

George Junkin is the man behind it all and his directorship is something that the community needs always.

See these plays Wednesday night.

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-go feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets, the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

New York, Nov. 14.—Activity and firmness in the railroad group featured the opening of the stock market today. Industrial shares were slightly irregular.

Great Northern preferred rose one-half to 57½, New York Central ¼ to 102½, Reading ¾ to 47½ and Southern Railway ¾ to 37. Kennecott Copper lost ¼ to 34½, while Cero De Pasco rose ¾ to 42.

Stromberg rose ½ to 80 and Stewart-Warner ¼ to 87½. U. S. Rubber lost ¼ to 35¼. Oils were irregular. Cosden yielding ¼ to 25½, while Standard Oil of California rose ¼ to 53¼.

TIRED, NERVOUS MOTHERS are the direct cause of much unhappiness in our homes; their condition irritates and wears upon the husband and often ruins a child's disposition. This condition of the mother is often due to some weakness which makes her entirely unfit to perform her household duties and bear the strain upon her nerves that governing children involve. Every woman who finds herself in this condition should remember that statistics prove that 98 out of every 100 women who suffer from female ills are helped by Lydia E. Pinkham's Vegetable Compound and lose no time in giving it a fair trial.

SMALL BEGINNINGS SHOW BIG RESULTS

Many great enterprises begin in a small way. Many a successful advertiser has begun by using classified advertisement in a modest way. These brought good returns, which enabled the business to be developed, and eventually large advertisements were profitably used. Intelligent use of the little ads in The Salem News either by advertiser or reader will prove to you.

Hunters Set For Opening. Of Season On Thursday

With a normal number of hunting licenses issued by Salem representatives of the State Fish and Game department, everything is ready for the opening of the fall hunting season, except for squirrel, which closed Oct. 26. Thursday is the official opening.

Rabbits, grouse and pheasants are very plentiful, especially rabbits. Early fall leaves making vision clear, and enough dampness to make tracking easy make it appear that it will be a banner season. At midnight Wednesday there will be several hundred hunters in this vicinity who will attempt to be the first to bag the coveted cottontail, ruffed grouse, coons and many other varieties of the hunted species of birds, fowl and animals of the fur bearing variety, not forgetting Mr. Fox.

Seasons and Bag Limits
The bag limit on rabbits is ten. The season closes Dec. 31. Ferrets are barred and the gunner caught with one will have a heavy fine. The fur bearing animals all may be trapped and hunted beginning Thursday. Skunk, fox, opossum and raccoon

AGE OLD RIVALS, WASHINGTONVILLE AND SALEM MEET

Age old gridiron rivals will meet on the Centennial park field at 2:30 p. m. Sunday. The Washingtonville Pros, having in their lineup some men who have played football for many years ago, will oppose a Salem team, the Schafer Independents, a new representative of the Quaker City, but as a representative team, a traditional enemy of Washingtonville.

Germany Shaffer is, perhaps the oldest player on the Washingtonville team. He has played against and with Salem teams for many years and is still at it, with his old time life. The Independents, after their great game at Canton last Sunday, will enter the fray favorites, although outweighed perhaps 30 pounds to the man. Washingtonville always has but one team, and that is heavy, and unless there is some weight on an

opposing team the sheer strength often wins.

There will be no loading up by either team. No new players will be added to the lineup. The Independents will use the same lineup as last week, while Washingtonville will stack up as they did against the Salem Pros, which team flourished in early season.

Fans will get a chance to see Candle perform. This Schafer star, on the team a month but not given a

chance until last Sunday, is regarded, though very small, as one of the best men in this part of the state.

Greb And Tunney Clash On Dec. 10

Harry Greb, Pittsburg, middleweight champion of the world, will attempt to take Gene Tunney's light heavyweight title from him when the two battlers meet in Madison Square

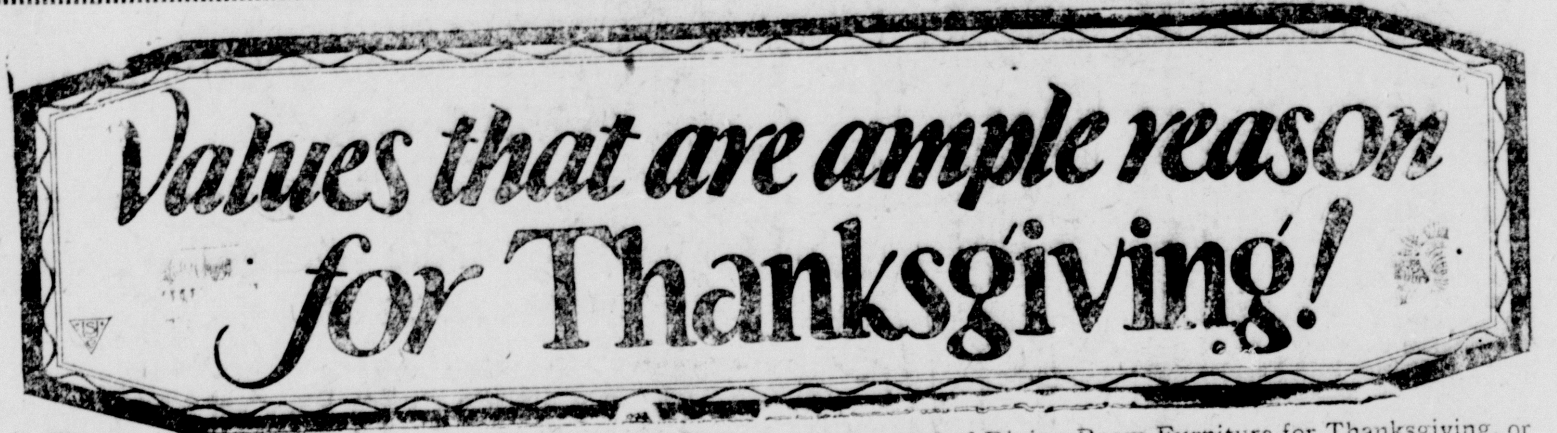

Garden the night of Dec. 10. Greb's title will not be at stake because Tunney cannot make the middleweight limit.

M'GRAW BREAKING UP CHAMP GIANTS TRADES 3 STARS

Cunningham, Bancroft And Stengel Go To Baves; Others To Follow.

New York, Nov. 14.—Regulars on the New York Giants were thrown into a panic today by reports that other stars are to follow Dave Bancroft, Casey Stengel and Bill Cunningham to rival clubs in line with the alleged intention of John McGraw to break up his old world's champions.

The reports followed respective deals whereby Bancroft went to the Braves as player-manager in exchange for Outfielder Bill Southworth and Stengel and Cunningham followed in lieu of the return of Pitcher Joe Oeschger to New York.

The story now whispered behind the hand is that Frank Frisch is the only member of the once all-star infield, comparable with the Chance Evers-Tinker-Stengel and McInnis-Collins-Barry and Baker combinations.

It is certain to remain on the New York payroll.

The others, Heinie Groh and George Kelly, may or may not go elsewhere. It is said, depending upon McGraw's established ability to swing a trade when the spirit moves him.

The Giant leader sailed for Europe yesterday on the George Washington to remain several months; therefore, has no intention of springing immediate development. Yet the fact will not down that the Giants' present condition is such that McGraw would hardly turn his back on the situation without having definite assurance from some source that business in the trading market will be brisk when he returns. McGraw must have another good infield before the start of next season.

Some say the latter is to be Rabbit Naranville, of the Pirates; others that Charley Hollocher of the Cubs is headed here. The Hornsby deal is said to have fallen as flat as a silver dollar, yet McGraw still has trading material in which St. Louis might be interested.

ALUMNI PROTEST AS STAR IS HURT

Irwin Utteritz, star quarterback on the Michigan championship team, had a small bone fractured in last Saturday's game with the Marines. He will not be able to play any more this, his last, season, it has been officially announced at Ann Arbor.

Following that announcement there has been a storm of protest from alumni and sports writers in Michigan because Yost pushed his regulars to the limit in that game which meant not a thing in conference standing and risked the chance of injuring star players, which was the very thing that happened.

Cleveland Host To Bowling Tournament

X-RAY USED TO FIND PEARLS

Oyster Shells Looked Through to Locate Gem Stones, Much Time Being Saved.

Science has come to the aid of the pearl hunter, whose task has now been much simplified by the employment of X-rays to detect the presence of the gem which, if it means only trouble for the oyster, spells money for the man who can find it and bring it to market.

Every oyster had formerly to be opened before it could be ascertained whether or not it contained a pearl, says London Answers. When one realizes that thousands of oysters are barren and days may be spent opening oysters without finding a single gem, the utility of the newer process is at once apparent.

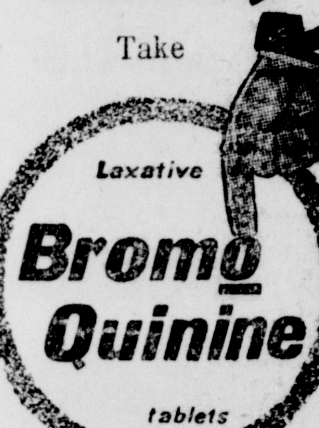

After the oysters have been dredged or collected and dispatched to the harbor, they are now examined by X-rays. If a pearl is present in one of them the "shadow pictures" at once show it.

Speed in handling is not the only advantage of this system. Oysters which are shown to possess no pearls are not harmed in any way, and can be returned to the water in the hope that, later on, pearls may develop in them. Similarly, oysters shown to contain only small pearls are replaced in special tanks, so that the pearls may be given a chance to grow larger.

This should mean that in a few years' time we shall have more, better and very probably cheaper pearls.

Women to attract must Radiate Health!

BEAUTY is the magnet which draws all eyes—and back of beauty—Health—working silently—Red blood tingling through the veins;—the glow of youth in the cheeks;—the spring of eagerness, of vim, of vitality in the walk;—the ever graceful air, unrestrained by care or worry—All the charms of beauty. All the works of health.

Men are fascinated by the charms of beauty. Women gaze with envy, secretly jealous, perhaps—wondering—hoping—praying for that attractiveness that is not theirs.

But why the wondering—the hoping—the praying for that craved-for attractiveness—that beauty. Good looks is the harbinger of one's condition. Good health radiates beauty. S. S. S. purifies the blood—creates new red blood cells—rids the system of impurities which make beauty and attractiveness impossible. As women to attract must radiate health so must they keep their systems free from impurities and their red blood cells ever increasing. S. S. S. does both.

S. S. S., since 1826, has been ridding the system of impurities—pimples, blackheads, boils, eczema and rheumatism—building red blood cells—aiding women to be attractive by radiating health. S. S. S. is made of carefully selected herbs and barks, scientifically prepared and proportioned. All good drug stores carry it.

S. S. S. is more economical to purchase the large size bottle.

Postum, the pure cereal beverage, is delicious and satisfying—and free from all the elements which so many users of coffee and tea find disturbing to nerves and digestion.

Postum contains no stimulant to keep you awake nights.

FOSSIL LIKE A CORNSTALK

Discovery in an Illinois Coal Mine Is Puzzling to the Scientists.

With the finding, in an Illinois coal mine, of a plant fossil resembling a cornstalk, previously accepted theories on the evolution of flowering plants are blasted, according to some botanists, and the mystery of their origin is pushed thousands of years farther back into the geological past. The strata from which the fossil was obtained were identified as belonging to the Paleozoic era, next to the oldest time division of geology, containing traces of long-extinct plant and animal life. Heretofore all reported specimens of land plants possessing highly organized structures, such as attributed to this recently discovered fossil, have been found in parts of the earth's crust formed during the Mesozoic period, which came millions of years after the Paleozoic era. From these previous findings, botanists have assumed that flowering plants began to appear about the latter part of the age during which the coal-forming plants flourished. They had expected to discover more primitive growths in these strata, but the new find indicates that flowering plants had already gone through an exceedingly long process of development before the earliest period recorded in the fossil rocks.—Popular Mechanics Magazine.

"SNAPPING" LIGHTNING FLASH

Photograph Easy to Make, and Shows Details Not Observed by the Eye.

The enjoyment of a thunderstorm is considerably enhanced by using a camera, or several, if one is fortunate enough to have more than one, and I recommend everyone to try the experiment. The camera supplements the eye, and is able to tell us more about the details of lightning flashes than the eye can grasp in the extremely small interval of time that the flash lasts.

The photography of lightning flashes is the simplest form of photography possible, and any camera will suffice.

One has only to set the focus for a distant object, place the camera on a window sill or some support out of the rain, pointing it in the direction where the flashes appear most frequently. The shutter is then opened and allowed to remain so until one or several flashes have occurred in the correct direction. The plate may then be changed and another inserted.—Dr. William J. S. Lockyer in the London Mail.

Few Divorces in Canada.

Divorces granted in Canada numbered only 544 in 1922, or two-thirds of 1 per cent of all the marriages contracted, according to a report just compiled by the Dominion bureau of statistics. Based on population, divorces numbered seven to every 100,000 persons. Divorces in the United States, according to the official figures for the last year on record, numbered 112 to every 100,000 people. Of the total divorces granted, husbands received 316, or about 60 per cent, British Columbia led in decrees issued, with 128, followed by Alberta, with 129, and Manitoba, with 97. One province, Prince Edward Island, granted no divorces. Only one divorce has been granted in this province since 1868. The greater percentage of the divorced were residents of cities.

American Wheat Flour in China.

Wheat flour is one of the most important articles of import from the United States into Hongkong, which is the great distributing center for flour for South China as far north as Amoy and to the neighboring countries to the south as far as Singapore. During the last three years the United States has increased its flour trade with Hongkong until in the year 1922 the United States furnished approximately \$5 per cent of Hongkong's flour imports, Consul W. J. McCaffery reports to the Department of Commerce. The remaining 15 per cent was for the most part divided between Canada and Australia.

Pumping Fuel to Seaplanes.

Refueling seaplanes while they are at anchor in the water has been accomplished by United States marines stationed on an island in the Pacific. By pumping air into an opening in the gasoline drum the liquid is forced out through another hole and carried by a hose to the tank of the flier. Formerly it required a half-hour to empty one barrel of fuel into the aircraft's reservoir, but now only seven minutes are needed.—Popular Mechanics.

IF HAIR IS TURNING GRAY USE SAGE TEA

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and luster of your hair.

Everybody uses "Wyeth's Sage and Sulphur Compound" now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared and after another application it becomes beautifully dark and appears glossy and lustrous.

All Tired Out

Hundreds More in Salem In the Same Plight

Tired all the time;
Weary and worn out night and day;
Back aches; head aches;
Your kidneys are probably weakened.

You should help them at their work. Let one who knows tell you how.

Mrs. Clara McKinzie, 16 West High st., Salem, says: "Several years ago my kidneys were not acting right and had me feeling out of sorts and sick all over. I was tired and nervous and felt languid all the time. My housework was too much for me. Occasionally, sharp twinges caught me in the small of my back and I got dizzy spells. I felt this way for a time until I started taking Doan's Kidney Pills, which members of my family recommended. I had relief from the pains and my kidneys started acting naturally again. I keep Doan's on hand and use them whenever occasion arises."

Clerk Kept Busy

"I don't want to see another week like this," asserted Clerk of Courts John T. Burns when he closed his desk late last night.

Two courts of common pleas were in session, also the court of appeals. This made work a plenty.

Came counsel from different parts of the county with new petitions for filing. Numerous automobile sales bills were to be made out and hunting licenses granted.

But the office did not close until the work of the day was "cleaned up."

No Question About That.

"Why should I boost your salary any more? I'm paying you a thousand a week now."

The danseuse executed a pirouette. "See that step?"

"I see that step," returned the manager.

"I invented that step," insisted the dancer.

"I know you did, cutie," snorted the manager, shifting his cigar from left to right. "You invented that step and a lot more. But lemme tell you something you need to know."

"What is that?" she asked.

"You didn't invent dancing."
